

FÅR NORTH SPIRITS

SOLVEIG
GIN

Story: Solveig \SOUL-vai\ is a uniquely lush and verdant New American Style gin distilled with 8 botanicals including red grapefruit, organic thyme and lavender. The Scandinavian woman's name Solveig has deep Nordic roots, combining the elements "sol" sun and "veig" strength – soulful, strong and bright – just like our gin. The flavor is inspired by how lush and green the prairie smells after it rains in early June.

Botanicals: juniper, grapefruit peel, fresh thyme, coriander seed, angelica root, orris root, gentian root and lavender

Still: Deloros, 50G Hybrid Pot Still by Vendome Copperworks.

Distillation: Botanicals are placed in gin basket and vapor infused.

Finishing: A portion of house-made high proof AC Hazlet based spirit is added for mouthfeel and texture.

Filtration: Lightly filtered. Non-chillfiltered.

Availability: Year-Round
